Which file for which fabric

FABRIC	FILES ENDING IN	COLOURS
Deep teal / bottle green / black	_on-dark	White, light green, gold, green
White / cream	_on-light	Deep teal, green, gold
Waza green	_1-colour-deep	Deep teal only (1 screen)
Any dark fabric, lowest cost	_1-colour-white	White only (1 screen)

Printing methods

- Screen printing for bulk orders: flat colours, sharp, washes well. The one-colour files need one screen only (cheapest).
- DTF / heat transfer for small runs (a few pieces): full colour, no set-up cost.
- Embroidery for caps (and polos): the digitiser may drop the thin outline around the bolt below 60 mm. Keep the W as satin stitch, at least 1 mm thick.

Files: print-files (SVG, vector) · print-files-png-300dpi (PNG, transparent)

Brand colours

COLOUR	HEX	RGB	CMYK (APPROX.)
 Waza Green	#16B878	22, 184, 120	C88 M0 Y35 K28
 Light Green	#3CC991	60, 201, 145	C70 M0 Y28 K21
 Deep Teal	#102A2A	16, 42, 42	C62 M0 Y0 K84
 Gold	#FFC83D	255, 200, 61	C0 M22 Y76 K0
 White	#FFFFFF	255, 255, 255	C0 M0 Y0 K0

CMYK values are converted from the screen colours. Ask the printer to match ink and thread to a printed swatch before the full run.

Garments

- T-shirts: 100% cotton, 180–200 g/m², crew neck. "Deep teal" is rarely stocked: bottle green or black are the closest common colours (use the _on-dark files).
- Caps: 6-panel cotton twill, adjustable strap.
- Check one sample of each item (colours, size, position) before printing the whole order.

Artwork notes

- All text is converted to outlines: no fonts needed.
- Do not stretch, recolour or add effects to the logo; keep clear space around it at least the height of the W.
- Text on the back: "Your Business. Better Organized." / "Ask me about WazaBolt" with the French line "Parlez-moi de WazaBolt".
